D-Like's "D" as in "Driving", "Drift" and "Dream". To wish to provide our customers a big fun of driving, finding the feeling like a man-and-horse relationship and believing we can go to higher places without any limitation, we decided this name.

Drift, is an acrobat performance of cars. It always attracts the drivers and also the audience. The root of our emotion comes from a very simple motive, we want to tell the people how drift is fun. We are earnestly pursuing to improve our products, and believing our emotion will infect to our customers.

"Real-Dri" (real style drift), this is an apt phrase that express about D-Like, that involves a determination to pursue providing the same drive feeling as real cars on the RC cars without any compromise.
